

**SCALE**

# Scale Knocker

**PROBLEM**

Severe scale in the seating nipple is restricting production.

**SOLUTION**

Removing scale from the seating nipple before it builds up decreases restrictions.

---

**PRODUCT OVERVIEW:** The PCS Scale Knocker is a PCS Shock Absorber Plunger with a stinger/broach that penetrates the seating nipple removing scale before it builds up. This plunger can be run daily, or as needed for scale removal, reducing chemical treatment and wireline expenses.

**PRODUCT SPECS:**

Scale Knocker (low portion)

Tubing Size	Standard OD
2 3/8"	1.900
