

PARAFFIN

Solid Plunger

PROBLEM

High gas to liquid ratio wells

-or-

Paraffin producing wells require a durable, low-cost plunger.

SOLUTION

A heavy plunger, with a consistent outside diameter, is able to cut through paraffin and has faster fall times.

PRODUCT OVERVIEW: The PCS Solid plunger is a low cost, durable, solid steel plunger with a grooved surface that is best suited for wells with higher gas to liquid ratios or wells producing paraffin, sand or salt. A lighter version of the PCS Solid Plunger is also available.

PRODUCT SPECS:

Solid Plunger

Tubing Size	Standard OD	Optional OD
1 1/4"	1.275	1.265, 1.270
1 1/2"	1.500	1.470
